Professional Summary

- **Experience**: Quality Control Engineer with hands-on expertise in manual and automated testing across Web, Mobile (Android & iOS), and API layers within fast-paced Agile engineering teams.
- **Testing & Quality**: Proficient in BDD, Cucumber, functional testing, regression analysis, system validation, and UAT. Skilled at designing structured, risk-based test suites for multi-platform applications.
- **Automation & CI/CD**: Experienced in architecting test automation suites using Playwright (TypeScript), Selenium, Appium (Ruby), and HTTParty for API testing. Integrated automated checks into GitHub Actions, Azure DevOps, and Bitrise pipelines.
- **AI-Augmented Testing**: Pioneer in leveraging Generative AI, SpecKit, and autonomous agent workflows to accelerate test scenario generation, achieving up to 30% faster test authoring and delivery without compromising test integrity.
- **Certifications**: ISTQB Foundation Level (CTFL), ISTQB Mobile Application Tester (MAT), and ISTQB Testing with Generative AI (GenAI).

Experience

- **Areeb Technologies** — Cairo, Egypt
  QC Engineer — *Sep 2025 – Present*
  - **Quality Assurance & Agile**: Partner with cross-functional product and engineering teams to embed QA best practices, define acceptance criteria, and ensure consistent release quality in sprint cadences.
  - **Test Automation**: Design and maintain scalable API, Web, and Mobile automation frameworks using Playwright (TypeScript), Selenium, Appium, and HTTParty.
  - **Infrastructure Optimization**: Migrated Android and iOS regression test execution from a dedicated server to an optimized local execution environment, eliminating dedicated server overhead and dependency.
  - **CI/CD Pipeline Optimization**: Implemented a local pre-commit hook for Ruby linting, offloading static checks from the dedicated CI pipeline and reducing pipeline execution time by 20%.
  - **AI & Automation Modernization**: Championed the adoption of AI-assisted testing via SpecKit with Ruby/BDD, and subsequently contributed to migrating test suites to a high-performance Playwright (TypeScript) framework for Web and API.
  - **Domain Scope**: Delivered end-to-end QC across live FinTech, SaaS, and AI-native products serving the Saudi Arabian market.

Projects

- **Cadaa – FinTech Platform for Real Estate** — Saudi Arabia
  QC Engineer — *Areeb Technologies*
  - **Test Planning & Strategy**: Collaborated with senior QA engineers to design end-to-end test strategies, scenario matrices, and acceptance criteria for financial transaction workflows.
  - **Cross-Platform Coverage**: Executed manual and automated testing across Android, iOS, and Web, increasing automated regression coverage by 10% across high-priority flows.
  - **Admin Portal Testing**: Conducted structured functional and security testing for the internal back-office management and reconciliation dashboard.
- **Atlas (UCaffee) – Café Management Application** — Saudi Arabia
  Founding QC Engineer — *Areeb Technologies*
  - **Framework & Infrastructure**: Architected the testing infrastructure and test lifecycle from scratch, operating as the sole QA engineer throughout the foundational launch phase.
  - **API Automation Ownership**: Authored comprehensive test plans and established the automated API test suite from zero, achieving 90% automated test coverage across critical backend endpoints within the first 2 months.
  - **AI-Accelerated Workflows**: Leveraged AI tooling for rapid test case authoring and edge-case generation, reducing cycle times during initial product delivery.

- **Domo – SaaS Project Management** Areeb Capital
  QC Engineer *Areeb Technologies*
  - **Architecture Migration QC**: Led quality validation during the platform's architectural transition from a single-tenant application to a multi-tenant SaaS model, safeguarding data integrity and tenant isolation.
  - **Playwright Migration**: Migrated legacy web automation tests from Ruby BDD to Playwright (TypeScript), scaling regression test automation coverage from 0% to 60%.
- **Dib – Complex Workflow Management Platform (Parent of Domo)** Areeb Capital
  QC Engineer *Areeb Technologies*
  - **Complex Workflow Automation**: Engineered resilient API and web automation suites for deep, stateful workflow management processes, minimizing regression risks in interdependent modules.
- **ARM – Resource and Team Management Platform** AI Using SpecKit
  QC Engineer *Areeb Technologies*
  - **AI-Augmented Test Engineering**: Led testing for an AI-native product using SpecKit, operationalizing AI-driven workflows for automated test creation and exploratory scenario modeling.
  - **Agent Blueprints & Knowledge Graphs**: Engineered domain-specific test skills and structured knowledge graphs to guide autonomous agents, establishing deterministic blueprints that resolved complex automation roadblocks.
  - **Quantified Delivery Impact**: Improved test authoring delivery speed by 30% through AI-assisted workflows while maintaining strict defect-detection standards.
  - **Modern Automation Suite**: Contributed to migrating the test suite from Ruby BDD to Playwright (TypeScript), expanding automated scenario coverage from 0% to 85%.

Technical Skills

- **Languages**: TypeScript, Ruby, Python, JavaScript, SQL
- **Test Automation**: Playwright, Selenium WebDriver, Appium, Cucumber (BDD), HTTParty, Postman
- **Methodologies**: Manual Testing, API Testing, Mobile Testing (iOS/Android), Regression Testing, UAT, CI/CD QA
- **AI & Testing Tools**: SpecKit, Generative AI for Testing, Claude, Gemini CLI, Antigravity, GitHub Copilot
- **DevOps & Management**: GitHub Actions, Azure DevOps, Bitrise Pipelines, Git, JIRA

Education & Certifications

- **Faculty of Computer and Information Sciences – Ain Shams University** Cairo, Egypt
  Bachelor's Degree in Computer and Information Sciences *2020 – 2024*
- **ISTQB GenAI – Testing with Generative AI**
  International Software Testing Qualifications Board *Feb 2026*
- **ISTQB MAT – Mobile Application Tester**
  International Software Testing Qualifications Board *Dec 2025*
- **ISTQB Foundation Level Certificate (CTFL)**
  International Software Testing Qualifications Board *Jul 2025*
